

**January 24, 2023**

Ranger Investment Management is pleased to announce it has adopted the voluntary CFA DEI Code which provides investment industry organizations with an action-oriented and principles-based framework through which to drive measurable and meaningful change concerning diversity, equity and inclusion within organizations.

Over the past twenty years, our firm and clients have benefitted significantly from the contributions made by our increasingly diverse team. Adopting the Code holds us accountable internally and externally to measure, report and improve upon our DEI efforts, and provides a framework that helps us to grow as a more inclusive and aware organization.
