Ranger Investment Management, L.P. ("RIM") claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS Standards. RIM has been independently verified by Ashland Partners and Company for the periods October 23, 2002 through June 30, 2016 and by ACA Performance Services, LLC for the periods July 1, 2016 through December 31, 2021.

A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The RIM Micro Cap Composite has been examined for the period from August 1, 2014 through December 31, 2021. The verification and performance examination reports are available upon request.

**Notes:**

- RIM is an investment adviser registered with the United States Securities and Exchange Commission in accordance with the Investment Advisers Act of 1940. The RIM Micro Cap Composite (the "Composite") includes all fully discretionary, fee paying accounts, which invests, on a long basis only, in micro capitalization, growth-oriented equity securities traded on U.S. exchanges. The Composite inception and creation date is August 1, 2014. A list of all composite and pooled fund investment strategies offered by the firm, with a description of each strategy, is available upon request. The type of portfolios in which each strategy is available (segregated account, limited distribution pooled fund, or broad distribution pooled fund) is indicated in the description of each strategy.
- For comparison purposes, the Composite is measured against the Russell Microcap Growth Index (the "Index"), a widely recognized index which seeks to capture the performance of the microcap growth segment of the U.S. equity universe. Unlike the Index, Composite portfolios are actively managed and invest in a relatively focused group of holdings. Accordingly, comparing or contrasting Composite results or characteristics with those of the Index may be of limited use. Performance results of the Index include the reinvestment of dividends and income.
- Composite returns are presented gross and net of management fees and include the reinvestment of all dividends and income. Net of fee performance results presented above were calculated using the highest management fee equal to an annual rate of one percent (1.25%) of the capital account balance. The current fee schedule for the composite is one-hundred and ten basis points (1.10%) for the first \$25mm in AUM; Ninety-five basis points (0.95%) for the next \$25mm in AUM; Eighty basis points (0.80%) between \$50-100mm in AUM; and AUM over \$100mm is negotiable. The total expense ratio as of December 31, 2020 for the Ranger Micro Cap Fund, which is included in the RIM Micro Cap Composite, is 1.50% and the management fee is 1.25%. Investment advisory fees incurred by clients may vary. Valuations are computed and performance is reported in U.S. dollars. Policies for valuing investments, calculating performance, and preparing GIPS Reports may be obtained by contacting RIM at (214) 871-5262 or by e-mail at crteam@rangerinvestments.com.
- Composite Dispersion is calculated on a gross-of-fees returns basis using the asset-weighted standard deviation of all portfolios that were included in the Composite for the entire calendar year.
- Gross-of-fees returns were used to calculate the three year annualized standard deviation.
- Total Micro Cap ("MICCG") Assets include the Composite's assets as well as other micro cap assets managed by RIM. ACA Compliance Group as not reviewed the Total MICCG Assets or percentage of MICCG Assets in the performance table above.
- The Composite is re-valued and accounted for following a ten percent (10%) or greater cash, securities or asset class inflows or outflows at the account or composite level so as not to distort performance.
- Performance periods of less than 12 months are not annualized. Year 2014 results are for the periods from August 1, 2014 through December 31, 2014.
- RIM makes no representation, and it should not be assumed, that future investment performance will conform to past performance. Additionally, there is the possibility for loss when investing in a Composite separate account or pooled investment vehicle. Gross performance returns presented herein will be reduced by investment advisory fees and other expenses that may be incurred in the management of the account. The collection of fees produces a compounding effect on the total rate of return net of management fees. As an example, the effect of investment management fees on the total value of a client's portfolio assuming (a) quarterly fee assessment, (b) \$1,000,000 investment, (c) portfolio return of 8% a year, and (d) 1.00% annual investment advisory fee would be \$10,416 in the first year, and cumulative effects of \$59,816 over five years and \$143,430 over ten years. Actual performance results and fees of client accounts may differ substantially.
- References to specific securities are (1) for illustration purposes only, (2) may not represent a complete list of Composite holdings for the period, and (3) may not represent all securities purchased, sold or recommended for investor accounts. Securities referenced should not be deemed as recommendations and no assurances can be given that these examples or future security holdings will be profitable. A complete list of Composite holdings and returns for the previous quarter may be obtained by contacting RIM at (214) 871-5262 or by e-mail at crteam@rangerinvestments.com.
